### SECTION 5. FIRE FIGHTING MEASURES

**Flammability:**

Product is not flammable and will not burn.

**Suitable Extinguishing Media:**

For fires in area, use appropriate extinguishing media.

**Specific Hazards Arising from the Chemical:**

In a fire, dried ammonium sulfate can decompose at temperatures above 455°F (235°C) and may release ammonia and sulfur oxides which are toxic and may be flammable.

**Special Protective Equipment and Precautions for Firefighters:**

Wear full protective fire fighting clothing including NIOSH approved self contained breathing apparatus. Remain upwind of fire to avoid hazardous vapors and decomposition products.

<b>SECTION 6. ACCIDENTAL RELEASE MEASURES</b>
---

**General:**

Site specific procedures to address accidental spills are necessary as dictated by facility design, location, staffing, containment structures, and regulatory requirements. Consult engineers if needed.

**Personal Precautions, Protective Equipment and Emergency Procedures:**

In the event of a spill, clear unnecessary personnel from spill area. If direct contact with spilled material is likely, use personal protective equipment recommended in Section 8.

**Methods and Materials for Containment and Cleaning Up:**

Sweep up spilled material and collect for reuse or disposal. Dispose of material in accordance with local, state, province, and federal regulations. DO NOT flush material with water.

<b>SECTION 7. HANDLING AND STORAGE</b>
--

**Incompatible Chemicals:**

Avoid contact with alkalis and basic (high pH) materials.

**Containment:**

Keep in closed containers.

**General Hygiene:**

Do not eat, drink, take medication or smoke when direct contact is possible.

Always thoroughly wash hands after leaving a work area where contact is possible or has occurred.

**Storage:**

Keep containers closed and contents protected from dust, dirt, and moisture.

Have containers properly labeled for contents.

**Temperature for Storage:**

Preferred storage temperature range is 4°C-43°C (40°F-90°F).

**Ventilation:**

Local ventilation and dust collection

**Personal Protection:**

If direct contact with material is likely use personal protective equipment.

<b>SECTION 8. EXPOSURE CONTROL / PERSONAL PROTECTION</b>
--

**Exposure Limits**
